Blossoms and joy at Kumquat Gardens

This month, HIK took a delightful journey to Kumquat Gardens, a haven of nature's beauty and cultural celebration. Our visit was centered around the upcoming Tet Holiday, and we're excited to share the highlights with you.

Celebrating Tet with Peach Blossoms and Kumquat Trees

Floral Extravaganza

In preparation for the Tet Holiday, our little ones had the opportunity to witness the breathtaking beauty of Peach Blossoms and Kumquat trees at Kumquat Gardens. The vibrant colours and fragrant blooms set the stage for a day filled with joy and cultural exploration.

Unexpected Discoveries

The gardens held delightful surprises, including the presence of additional animals such as pigs and chickens. These unexpected encounters added an extra layer of excitement to our day, creating lasting memories for our little explorers.

Reflection and Celebration

Connecting Learning and Experience

We will reflect on our Kumquat Gardens adventure and incorporate our observations into hands-on activities. From creating artwork inspired by Peach Blossoms to learning about the care of Kumquat trees, the coming weeks will be filled with engaging lessons that connect our outdoor experiences with our classroom studies.

Excitement for Future Adventures

As we wrap up this newsletter, we look forward to more exciting adventures and learning opportunities at HIK. Thank you for being a part of our community and for supporting the growth and curiosity of our young minds.

May the vibrant colours of Tet illuminate your path, and the joyous melodies of laughter and love fill your heart as we celebrate the beauty and renewal of the Tet Holiday. Wishing you and your loved ones a season of prosperity, good health, and endless happiness. **Chúc Mừng Năm Mới!**
