

Butterfly Buzz

We had a great time at the transport museum this week! We made our way there on our school bus and no bus trip is complete with out singing 'The wheels on the bus', so that's exactly what we did! We enjoyed our morning snack on the steps of the museum garden, and then headed for a look about.

THE TRANSPORT MUSEUM

We seen a huge old airplane in the museum grounds and we even spotted some birds making their nest right at the top! Mrs Pamela has been reading us the story book 'The best nest' about a bird who flies all over town looking for the perfect place to make a nest, so seeing that was lots of fun!

We headed inside and saw some very cool cars and a big green truck! There were big glass display cabinets with models of old jets and horse and carts, Mrs Pamela told us that once upon a time horse and cart was the only way to travel about, imagine that!

Gratitude and Joyful Memories

We ended our day there by exploring some tunnels and some very big steps, they were so big we felt like we were climbing a mountain. We got back on our school bus and headed back to school just in time for some free play and lunch, what a great morning!
