

EXPEDITION TO THE NATURAL MUSEUM: A JOURNEY THROUGH TIME

This week, our eager Caterpillar/Cocoon class embarked on an enlightening adventure to the Natural Museum. The trip was a remarkable exploration of the wonders of ancient Vietnam and its rich history.

UNVEILING ANCIENT VIETNAM

The highlight of our visit was encountering a life-sized dinosaur, a thrilling experience that sparked the curiosity of our little explorers. We delved into the mysteries of prehistoric times, examining various fossils that unveiled the secrets of ancient life and evolution.

BREATHTAKING BIODIVERSITY

From the tiniest insects to the majestic creatures of the wild, our class marveled at the incredible biodiversity on our planet. Different plants and trees were showcased, and the children were fascinated by the intricate web of life that sustains our ecosystems.

CHECKLIST CHRONICLES

To ensure that our little ones remember every detail of this enriching experience, each child was given a checklist. As we navigated through the museum, the children marked off each item they discovered, creating a personalised record of their educational adventure.

A TAPESTRY OF MEMORIES

The Natural Museum field trip was a tapestry of memories woven with learning and exploration. We want to express our sincere thanks to everyone who contributed to making this experience possible.

As we conclude this chapter, we eagerly anticipate more adventures and educational opportunities for our Caterpillar/Cocoon class.

THANK YOU FOR ENTRUSTING US WITH YOUR CHILD'S EDUCATION, AND FOR BEING AN INTEGRAL PART OF THE CATERPILLAR/COCOON CLASS COMMUNITY. TOGETHER, WE ARE SHAPING THE CURIOUS MINDS OF TOMORROW.
